

EventRide

THE GUEST-EXPERIENCE PLATFORM FOR WEDDINGS

One page for a wedding's guests.

From the first invitation to the final photograph, and every journey in between. Built for weddings where the guests travel in. Offered to couples through their planner.

The invitation

A save the date and an invitation, designed on the platform or the couple's own. Every guest arrives at one page with one code.

Travelling together

Guests going the same way are shown to each other, to travel together. The heart of it.

The album

Every guest's photographs in one shared album, opened when the celebrations begin and kept for 12 months after the wedding.

WHAT YOU GET

The arrival picture, without the spreadsheet.

How they arrive	How many guests arrive through each airport or station, on which days, and how stays spread across areas.
Every reply	Each person's reply as it comes in, and, where a guest shares them, their arrival, stay and dietary needs.
One export	All of it as one data export, yours to download at any time.
Reminders	Three gentle emails that show a guest where they have got to and the one thing to do next, timed and worded with you when the wedding is set up.
Inside your service	Your logo and colour on the guest pages and emails.

WHAT IT NEVER DOES

EventRide never books, sells or arranges travel or accommodation, or takes payment for either. It shows an overlap and steps back. Matching is opt in, full names and contact details appear only when both households agree, and journey details are deleted within thirty days of the wedding.

IN SIX STEPS

ONE · THE WAY IN

Each guest opens their page from the link or code on their invitation. No account, no password.

TWO · THE REPLY

Each person on the invitation, marked as coming or not.

THREE · THE JOURNEY

Flying, by train, by ferry or driving; which airport, station or port; which day and roughly when.

FOUR · TRAVELLING TOGETHER

Guests going the same way are shown to each other. Both sides choose.

FIVE · THE STAY

The place, the area, or not booked yet. It orders the list; it never makes a match.

SIX · AFTERWARDS

One album, opened when the celebrations begin and kept for 12 months.
